

Since 1967 Kirk-Rudy has manufactured innovative solutions for the mailing, printing, and packaging industries. From their state of the art 100,000 sq. ft. factory just north of Atlanta, GA, a complete product line of feeders, transport bases, conveyors, inkjet printers, inserters, labelers, tabbers, sorting, stacking, tip-on, pick-n-place, folders, bump turns, drying and matching/vision systems are engineered and produced with the highest standards of quality and value.

Harry Kirk's principle of "Build a better machine, and it will sell itself" has been Kirk-Rudy's mission since day one. A highly experienced and dedicated team work together every day designing and manufacturing the highest quality mailing and printing equipment used by the world's top companies.

Kirk-Rudy's Phoenix is the world's fastest high resolution inkjet printing system and one of the most versatile printing systems on the market today. Utilizing the latest UV curable inks makes printing on virtually any surface an easy reality.

The KolorJet is an amazing four color high speed inkjet printing system capable of printing 500 color envelopes in one minute, making for a profitable digital inkjet solution for direct mail and transactional pieces.

Kirk-Rudy is well known as an innovator of tabbing systems. The KR545T is the only tabber on the market that will apply multiple tabs to three sides of a mail piece in a single pass. They have a complete line of tabbers to meet every size operation as well as labelers and stamp applicators.

All of Kirk-Rudy's equipment is sold through a world-wide network of authorized dealers who have been factory trained on sales and service and fully supported by the factory. With Kirk-Rudy's Customer Satisfaction Guarantee all the guess work is removed from choosing the right equipment. Ask anyone who owns their equipment and they will tell you, "Nothing is built like a Kirk-Rudy".
