

MAI ---

Mail Automation, Inc.

Mail Automation, Inc., addresses exclusively the need for single-source, multi-product solutions in mail manufacturing and processing facilities.

MAI designs, manufactures and implements a variety of Mail Tray handling solutions for the mailing marketplace. We provide Tray Handling Conveyor Systems as well Sorter Tray Racks. Our tray racks are built specifically to meet your needs whether it is our fixed drawer and shelf-style EconoRak or our Pull-Out Drawer and Pull-Out Shelf style all of which are specifically built to match the pockets in your high-speed sortation equipment.

Our product line includes:

- ▶ Mail Tray Conveyor Systems
- ▶ Automated Banding
- ▶ Centralized Trim and Scrap Collection
- ▶ Corrugated Box Handling Systems
- ▶ Sorter Tray Rack Systems
- ▶ Carts
- ▶ And more

PostalOne® TMS

The PostalOne® System provides the capability to scan bar code labels, weigh mail trays and tubs, and print Dispatch & Receipt (D&R) labels for manual or automatic application (depending upon the customer's configuration). D&R labels are created based on information exchanges through a United States Postal Service Transaction Concentrator (TC). PostalOne is designed for reliability and ease of use, while maintaining a low cost that yields an exceptional value to the customer. PostalOne is available in Automated, Semi-Automated and Tabletop versions.
